risk pricing strategies for public private partnership projects innovation in the built environment the complexity of public private partnership ppp project procurement requires an effective process for pricing managing and appropriate allocation of risks the level at which risk is priced and the magnitude of risks transferred to the private sector will have a significant impact on

the cost of the ppp deals as well as on the value for money analysis and on the selection of the optimum investment options the construction industry tends to concentrate on the effectiveness of risk management strategies and to some extent ignores the price of risk and its impact on whole life cost of building assets there is a pressing need for a universal framework for the determination of fair value of risks throughout the ppp procurement processes risk pricing strategies for public private partnership projects addresses the issues of risk pricing and demonstrates the use of a coherent strategy to arrive at a fair risk price the focus of the book is on providing risk pricing strategies to maximise return on risk retention and allocation in the procurement of ppp projects with its up to date coverage of the latest developments in risk pricing and comprehensive treatment of the methodologies involved in designing and building risk pricing strategies the book offers a simple model for pricing risks the book follows a thematic structure ppp processes map risk uncertainty and bias risk pricing management strategies risk pricing measurement and modelling risk pricing at each of the project life cycle stages and deals with all the important risk pricing issues using relevant real world situations through case study examples it explains how the theory and strategies of risk pricing can be successfully applied to real ppp projects and reflects the broad understanding required by today's project risk analysts in their new and important role in ppp contract management also in the ibe series managing change in construction projects senaratne sexton 978 14443 3515 6 innovation in small professional practices in the built environment lu sexton 978 14051 9140 1 other books of interest urban infrastructure finance and management wellman spiller 978 0 470 65635 8 project finance for construction and infrastructure pretorius chung hsu mcinnes lejt arner construction supply chain management pryke 978 14051 5844 2 policy finance management for public private partnerships edited by akintoye beck 978 14051 7791 7 strategic issues in public private partnerships 2nd edition dewulf blanken bult spiering 978 0 470 65635 8

this report from the transport committee examines london underground and the public private partnership agreements the government originally announced proposals for modernising the london underground network system via public private partnership ppp agreements in 1998 three contracts were drawn up with i tube lines for the maintenance and renewal of the jubilee piccadilly and northern lines ii with metronet rail bvc for the maintenance and renewal of the bakerloo central victoria waterloo city lines iii with metronet rail ssl responsible for the maintenance and renewal of the sub surface lines the circle district hammersmith city metropolitan east london lines these ppp agreements 30 years in duration were arrangements to maintain renew and upgrade parts of london underground by private sector infrastructure companies infracos whilst london underground is responsible for services to customers the ppp agreements also set out a performance related incentive and penalty scheme to remunerate the infracos for the improvements they make to the network in may 2007 metronet admitted an overspend of 1 billion and was refused access to loan facilities by the banks it then made a reference to the ppp arbiter which in turn triggered an extraordinary review which occurs when extra costs are incurred above the level allowed for the bid metronet put in a bid for 551m but the ppp arbiter provisionally concluded that a sum of 121m was appropriate metronet subsequently went into administration on 18 july 2007 the report sets out a number of conclusions and recommendations including contracts that were supposed to deliver 35 station upgrades in fact delivered only

14 40 of the requirement stations that were supposed to cost metronet $\text{\pounds}2\text{m}$ cost $\text{\pounds}7.5\text{m}$ with only 65 of schedule track renewal accomplished the committee criticises the consequences of the imposition of ppp on transport for london as a lamentable state of affairs with the future of most of london underground's upgrade and maintenance work in doubt the committee states that the government should remember the failure of metronet before it considers entering similar arrangements that the government should publish a candid analysis of the events preceding metronet's collapse and its consequences the committee believe that the ppp model was flawed and probably inferior to traditional public sector management that the government needs to prioritise transparency and clarity to taxpayers and ensure that any future contracts result in clear accountability

the term purchasing power parity may date from the early twentieth century when it was coined by the swedish economist gustav cassel but the underlying concept had been enjoying varying degrees of success since its development in sixteenth century spain even towards the end of the twentieth century and especially since the breakdown of the bretton woods system of fixed exchange rates ppp and the stability of real exchange rates continued to be the subject of academic debate this volume brings together essays covering aspects of current thinking on purchasing power parity from the various ways in which to test for its existence to its appearance in different economies around the world to examinations of the explanations given when ppp does not appear to hold this book was published as a special issue of applied financial economics the academic editor of this journal is mark p taylor

covers linux solaris bsd and system v tcp ip implementations back cover

using netscape mosaic wingopher and other new graphical programs requires a serial line internet protocol slip or a point to point protocol ppp connection to the internet but few computer users know how to establish such a connection fewer still know of the many benefits of graphical internet access beyond surfing the world wide the slip ppp connection provides all the information you need to overcome the now legendary obstacles of establishing these special internet accounts and to achieve smooth graphical access to the world wide and the rest of the internet written by internationally acclaimed internet guru paul gilster this is the first complete step by step guide to getting using and maintaining a slip or ppp connection you'll be able to select find and download the right hardware and software for every internet application
